"The third **wall** which the papacy will bring down in order to take control of the entire world is the symbolic '**wall of national sovereignty**.' The structure which will be used to control the world is the United Nations. Already within the laws which have been developed by the United Nations, we find the legal principles designed to remove national sovereignty. This organization has already written and passed laws which supercede the national laws of individual countries. In fact, many of these countries -- including the United States-- have already signed these agreements, placing the laws of the individual nations in subjection to the laws of the world government. In order for the papacy to command the entire world, national sovereignty must be removed."
